

Model Hovercraft Association

The Model Hovercraft Association was formed in 2004, with a view to bringing some organisation to the development of model hovercraft, which previously had been well served by relatively isolated pockets of interest. The Association's activities include lectures and films, videos and other visual material on all aspects of model hovercraft from research, through construction and operating. Visits to locations and firms/manufacturers of interest, and social events are also organised. The Association is run by a Management Committee consisting of those with experience in appropriate fields.

The main objectives are:

1. The encouragement of interest in and the building and operating of model hovercraft.
2. Research, education and discussion on the design, operating and technical principles of model hovercraft,
3. The circulation of a Newsletter.

Membership Information

Applications for membership are accepted subject to confirmation by the Association's Management Committee.

Members

Being 18 years of age or over with an annual subscription of **£25**

Junior

Being under 18 years of age with an annual subscription of **£10**
